

Editorial

The European Calls for Projects have been unveiled!

On October 27, the European Commission officially published **the forthcoming Calls for Projects for the period 2018-2019**.

Among the **innovation themes**, there are **several hundred Calls** of interest for textiles and the flexible materials sector in general. These include innovation in materials, processes, factory of the future, the circular economy, new models, the Internet of Things, health, and the smart city

To win the funding associated with these calls, there is a need for solid and ambitious proposals that respond to the European keywords used in the selection criteria: **excellence, impact and implementation**. The prize is several billion euros of subsidies!

The cluster has identified at least **19 calls** that fit into the cluster's strategic roadmap and the industry. Since December 2016, we have been actively working to position the industry on specific calls.

This is the RIGHT TIME to establish your idea and target a consortium in search of your skills. No doubt, there are opportunities you have not identified. The cluster is here to talk with you.

Our services

Trends Programmes

Techtera offers manufacturers a continuous and up-to-date watch on aesthetic and creative trends with a market focus. The aim is **to acquire a clearer vision of the products to be developed for the coming season**.

There are many **guest speakers** to boost your creativity. Each of them, not only contributes its **creative intuitions** but also its **description and analysis of market expectations**.

They are members

AJ BIAIS

It all began in 1890 with the birth of a ribbon-weaving firm for the dressmaking industry: **Manufacture JH JABOULEY & Cie**. The year 2007 marked the arrival of **AJ BIAIS**, a merger between Alpha Biais and Jabouley. Very quickly, the business diversified and today AJ BIAIS is positioned as an indispensable player in the **accessories and border/binding market**.

See the full article: <https://www.techtera.org/actualite/aj-biais>

LPMT

The **Laboratory of Textile Physics and Mechanics (LPMT)** is one of the two French academic laboratories working on the **Science of Fibres**. It specialises in the **development and characterisation of materials and processes for the fabrication of fibrous structures, from nanometric to macroscopic scale**. At each level, mono-, bi- and three-dimensional structures are studied. Each of them may receive surface treatment or bulk treatment.

January 21-23: Intersec Dubai - Dubai

Techtera invites you to exhibit at **INTERSEC Dubai** from **January 21 to 23, 2018**; an international meeting for **security, safety and protection** in the Gulf countries and the Middle East in general.

Take advantage of a **turnkey stand and maximum visibility** by exhibiting under the banner of France, while benefiting from the **Techtera communication and support service**.

Eligible firms will also benefit from **reduced participation costs** thanks to the support of the **Auvergne-Rhône-Alpes Region** for a **minimum of six signed up firms**.

You can find details of this offer in the [brochure available here](#).

The deadline for registration is October 27. Registrations will be processed in order of arrival.

More information: Julie Rafton-Jolivet - jrafton@techtera.org

January 20-31: Ispo Munich

Since 2010, the **ISPO** show has been the **major event** for the **sports industry**. Today, it welcomes a multitude of top-notch decision makers, as visitors or exhibitors.

More than **2,700 exhibiting firms** and **87,000 visitors** are expected for the next edition, creating a wide range of opportunities for outreach.

January 30 – February 2: Munich Fabric Start

Munich Fabric Start is:

- **A bi-annual international exhibition** for preselected textiles, accessories, denim, streetwear and sportswear
- A source of **information and inspiration** for the new season
- Products for all categories of clothing on **eight exhibition spaces**.
- An environment designed to **showcase your products**

Techtera offers various services to you at the event:

- **A turnkey stand**
- **Publicity for your skills**
- **Reduction in your participation costs** *

* **Operation supported by the AUVERGNE-RHÔNE-ALPES Region** for eligible companies

Contact: Julie RAFTON-JOLIVET - jrafton@techtera.org

February 12-15: Avantex - Paris

Techtera will again be present at this **international fair for smart textiles**.

In this leading fashion market, where the **most innovative companies in terms of materials, products and services for the fashion industry** meet, TECHTERA hopes once again to create contacts and **foster the emergence of projects and interactions** between the worlds of fashion and high-tech textiles.

Contact: Julie RAFTON-JOLIVET - jrafton@techtera.org

February 13-15: Première Vision Paris

Première Vision is the **worldwide event for professionals in the fashion industry**.

For the second time, TECHTERA with the support of **UNITEX** is working with firms of the Auvergne-Rhône-Alpes region at **Première Vision Paris show**. Enterprises present at this trade fair will benefit from representation on a **joint stand**.

Techtera will also have a stand at **Wearable Lab**, focused on smart-textile activities.
