## Héraud Rubans

### Expertise

Héraud Rubans was one of the first to design magnetic tiebacks on the French market. This range of products include several kinds of materials such as wood, metal, textile, leather or even polyester resin.

Magnetic tiebacks are probably the most genius invention of the last decades : easy to use, no drilling's necessary, they will seduce you by their efficiency. Its collection is probably the largest on the market. Héraud Rubans is well-known for its quality and mostly for the strength of the magnets used.

Every season, it develops new models and keeps on searching for new designs that are bringing the traditional trimmings forward, based on the indoor decoration trends.

Héraud Rubans has its own manufacturing workshop, where all specific and customized projects can be achieved whenever it is for contract or collectivities.

### Activity Area

- Innovative textile
- Decorative accessories
- Tailoring Industry
- Curtain tapes

## RELAX, how does it works?

Difficulties falling asleep, waking up at night, restless nights... millions of people complain of sleep disorders. This has major repercussions on daily life and health.

To solve this problem, Proneem offers the natural wellness solution RELAX CBD ORIGINAL. Thanks to the mixture of hemp oil and Cannabidiol extract, the RELAX CBD ORIGINAL fragrance envelops you in well-being.

## Molding technology

Patented process that consists in a rotative and continuous thermo-compression of a multilayers subtract by transferring the pattern of a cylinder to create three-dimensional effect.

Used in Automotive, Upholstery, Garments, Wall-coverings...

## RESPECT LINE

For several years, Satab has been developing an eco-responsible range. Each of the materials used in this range is certified in the most demanding standard of its type: GOTS cotton and silk, Recycled Polyester / GRS, Tencel FSC, Masters Of Linen.

The DNA of the Respect Line range requires a fair use of internal resources. In order to avoid overstocking, this range is only available in ready-to-dye colours, black and white in a single package. The other colours are produced on demand using a less energy-consuming process.

## RESPIRE, how does it works?

Sneezing, coughs and colds make life unpleasant and disturb the nights. Lack of sleep accumulates and damages general health. RESPIRE is the natural solution that helps to clear the airways and to breathe better.

Thanks to concentrated Menthol and Eucalyptus essential oils, RESPIRE diffuses effective active ingredients to relieve the ENT tract and decongest.
